TRULY NATIONWIDE

According to a recent study by LIA Administrators & Insurance Services, many AMC's concentrate their services in just a few states:

6 REASONS TO PICK A TRULY NATIONWIDE AMC...

- 1 Reduce your risk** – Small appraisal management companies often outsource appraisal requests to other small appraisal companies because they are not registered in the states that you do business in. Often times, lenders don't know this is happening. Why take the chance with your business?
- 2 Save time and money** – Working with several smaller appraisal management companies means more due diligence on your part. Due diligence and third party oversight and management eats up a lot of time and resources. Having a truly national appraisal management company as your appraisal vendor is the right choice!
- 3 Comply with State Requirements** – National appraisal management companies understand the specific state requirements for appraiser selection, customary & reasonable fees, appraisal reviews, reporting and so on. You can rest assured that every file in every state is handled within the guidelines of the state with a national firm which has gone through the proper steps to be registered to do business there.
- 4 Easy order placement** – Many national AMC's are integrated with top Loan Origination Systems or management platforms. Even if we are not integrated with your particular platform, it is very likely that we will be able to make that happen for you. Integrations reduce the costs of manual order entry and removes chances for human error.
- 5 Better Quality Control** – Many national AMC's have been around for quite some time and have developed a national footprint of appraisers who have a good understanding of lender requirements for quality control. Quality control often starts with selecting the best appraiser for the job. With a national AMC you can rest assured that there is a quality appraiser available in the areas you need them most.
- 6 Bigger is actually better** – National Appraisal Management Companies have to spend a lot of time and resources to maintain their national coverage status. Often times this means that they are more financially sound, have better insurance coverage, a larger appraiser panel to handle your requests everywhere, and more man power to scale as your business grows.

STATE REGISTRATION

Our commitment to compliance extends to every facet of our business. We understand the importance of ensuring this commitment through state registrations. Our appraisers rely on NAN to be active and current in the states that they work in and to follow all of the necessary protocols to remain so in order to ensure the steady flow of business.

* RNR - refers to a state where registration is not required

We're proud to be one of a select few AMC's that are Truly Nationwide.
Our Lenders can view all of our State registrations in our Compliance Portal.
Get in touch and ask for access.
